

NYS Education and Training Voucher Program

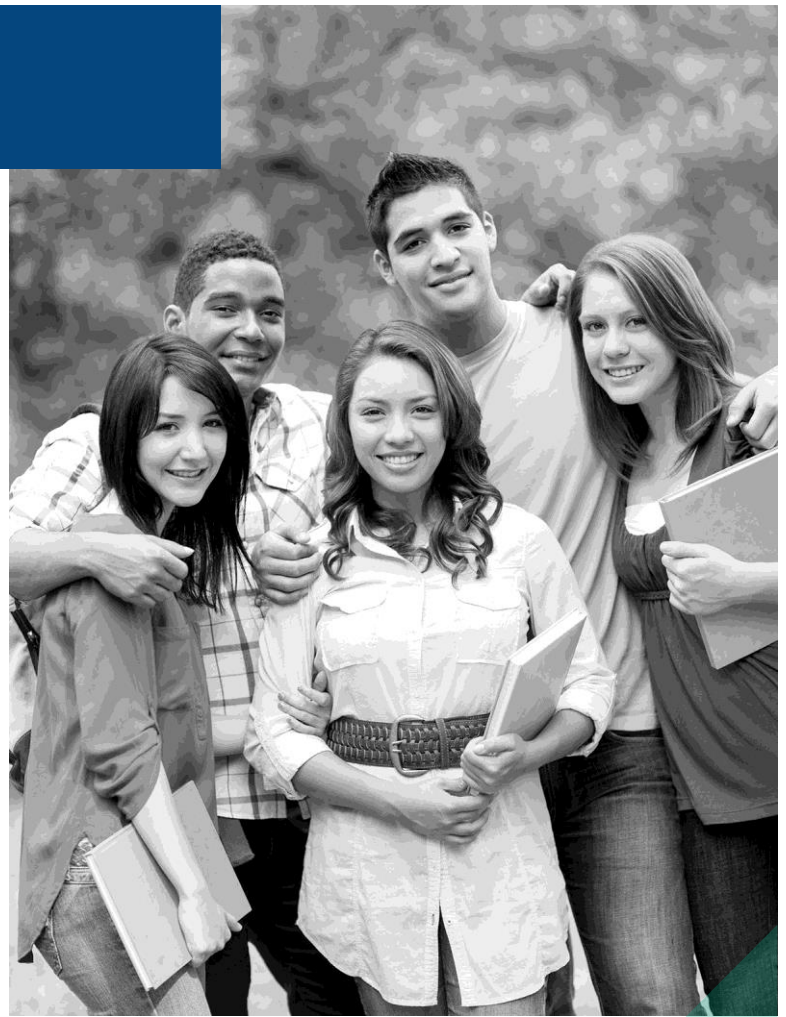

Supporting Your Future

The Education and Training Voucher (ETV) Program of New York State is designed to help current or former foster care youth become economically self-sufficient. **Awards of up to \$5,000 per year** are granted for post-secondary education or vocational training and related expenses.

The State program is part of a national initiative funded by the John H. Chafee Foster Care Independence Act of 1999. The Act broadened state capabilities for providing youth access to a variety of supports to assist with the transition from foster care.

As of 2020, the ETV program is administered in New York State by WRI Solutions, Inc., a not-for-profit agency devoted to providing technical assistance to government agencies and the non-profit sector.

Students can apply for ETV funding in New York State at etv-nys.com. Further specifications about eligibility and program requirements appear on the reverse of this flyer.

ETV funding may be used for tuition, fees, books and supplies, housing, transportation, and other education-related costs.
